

JIIT NOIDA

Institute Environment & Energy Policy

Institute Environment Policy:

Institute pledges to be a model eco-friendly campus of education in minimising the impact of its activities on the environment.

To achieve this, JIIT will comply with

- Practicing economy in resource utilization
- Regular environment audit
- Minimising toxic emissions
- Promoting recycling both internally and amongst its suppliers Implementing safe methods of disposal where applicable
- Meeting all the environmental legislations related to the Institute
- Suggestions that would improve Institute's Environment Quality

Institute Energy Policy:

To empower students with knowledge and awareness on conserving energy as a resource and implement resource conservation practices and renewable energy options at all levels on campus

To achieve this, JIIT will comply with

- Practicing conservation of energy in utilization
- Promoting use of renewable energy both internally and amongst its stakeholders
- Implementing Bureau of Energy Efficiency guide lines
- Promoting demand side management in the Institute
- Regular energy audit and implementing audit recommendations.
- Meeting all the energy conservations rules and norms related to higher educational Institutions
